## Berchmans Institute of Management Studies

One of the pioneer Management Institutions in the State of Kerala, BIMS is the flagship department of St Berchmans College, Changanacherry, Kerala. The college celebrates 100 years extending knowledge and changing lives in the year 2021-22.

In the centenary year of SB College, BIMS has organized a series of talks by eminent personalities titled Berch-Talk with the theme 'India Forward'.

---

### India Forward

The Indian economy, which was surging forward and poised to take global leadership has been adversely hit by the Covid 19 pandemic. But, the nation needs to move on, regain its developmental momentum. In this context, the Berch Talk Series 'India Forward' highlights areas like: Economy, International Relations, Infrastructure, Technology, Banking & Finance and Services & Manufacturing Sectors.

Eminent experts from these areas will share their vision in a series of Online talks for management students and industry professionals in the 2021-22 academic year.

---

### Infrastructure for Future

Infrastructure, be it construction of highways, ports, airports, railways or internet and communication systems need careful future oriented planning. Rebuilding of the economy, requires huge investments in this area. Therefore, this becomes a vital area to focus in the nation's future planning.

---

### Dr SK Pattanayak

Dr Santosh Kumar Pattanayak is a strong visionary, multi-disciplined management professional with over three decades of rich and varied experience across government departments and public sector enterprises of India. He belongs to the 1989 batch of Indian Railways Accounts Service.

Apart from holding key positions in Indian Railways, Dr Pattanayak has the distinction of holding key management positions in the State and Central Public Sector Enterprises. Dr Pattanayak joined Heavy Engineering Corporation as Director Finance and then as Managing Director of Indian Railway Finance Corporation.

He has rich experience and expertise in Strategic Planning & Management, Capital Restructuring, IT Operations, Project Management and New Technology Implementation and will be sharing his views on building infrastructure that will take India ahead in the coming decades.
